ODIGBO KELECHI PAUL

Address: No 1, Badejo Street, Ikeja, Lagos, Nigeria
Email: Paulkelechi11@gmail.com Phone: +2348130394202

EDUCATION

B.Sc (Computer Engineering) –
Michael Okpara University of Agriculture, Umudike, Abia 2015 - 2023
Alx Software Engineering Program – Alx 2022 – 2023

WORK EXPERIENCE

Software Developer, Dew Insight - Lagos, Nigeria June 2024 - Date

- Engineered a high-concurrency Performance Management System for a Tier-1 financial institution. Scaled the platform to support 1k+ concurrent internal users.
- Contributed to the end-to-end development of a distributed Applicant Tracking System (ATS). established CI/CD best practices and a shared build tool that reduced feature turnaround time by 50%
- Automated approval system for bank's AI initiatives using multi-staged AI workflow.
- Engineered an event-driven, AI-integrated support engine utilizing WebSocket-based real-time messaging and LLM integration.

Web Developer, O2 Legal - Lagos, Nigeria Mar 2024 - June 2024

- Architected a low-latency real-time notification engine and chat interface leveraging WebSockets, improving CSAT (Customer Satisfaction) scores by 25%.
- Streamlined client onboarding time by up to 70% by implementing dynamic document generation and appointment booking.
- Created standardized API documentation guidelines that reduced developer onboarding time and decreased internal support tickets by 15%.
- Implemented quality assurance processes to maintain the highest standards of product quality and reliability.

AI Prompt Engineer, Codygo, Israel (Remote) — March 2024 – Aug 2024

- Developed a rigorous LLM evaluation framework. Optimized response relevancy and groundedness, reducing hallucination rates by 35% across production Inference tasks.
- Engineered a centralized Prompt Management Registry with version control and A/B testing capabilities. Reduced iteration cycles by 50%
- Calibrated system prompts to enforce strict persona adherence and output formatting (JSON/Function Calling), ensuring seamless integration with downstream APIs.
- Designed user interface and Data Flow diagram to streamline product creation.

Web Developer, Anthills Integrated Systems Limited - Ekiti, Nigeria Aug 2020 - Feb 2022

- Designed, tested, and implemented software features to enhance efficiency and competitiveness.
- Collaborated with product and design teams to create responsive user interfaces.
- Developed and maintained application features using the latest web technologies.
- Wrote clean, efficient, scalable code and participated in code reviews.
- Optimized applications for improved performance and adaptability.
- Designed algorithms and flowcharts for new web programs.

IT SKILLS

Programming Languages(Python, JavaScript, C), Automation(HugginFace, RAG systems, monitoring), corporate process automation/visualization.

INTERESTS

Basketball, Chess, Gaming, Food
